Turning

Assembly

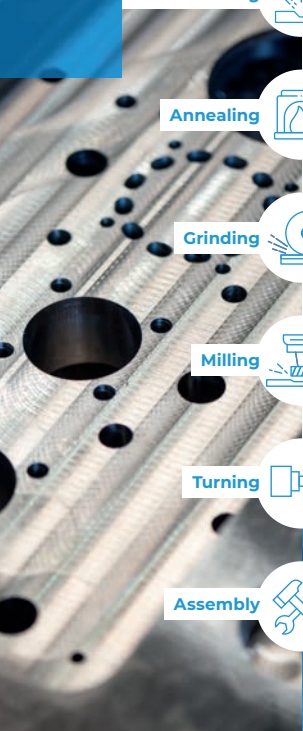

Large dimensions precise machining

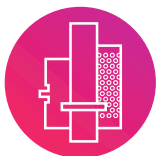

AMDL is your partner for the realization of small to large scale precise machining projects.

With a fleet of **over 30 machines**, we ensure a seamless production process, handling every step and following your drawings with various grades of steel and aluminum.

Our project managers are available **to help you** and to process your quotes **within 24/48 hours**.

We handle all types of CAD files. To get your quote, please send us your drawings by email.

Guiding elements

Our pillars, bushes, ball cages, and their guidance accessories are **available in stock**.

Explore our **three lines** of guiding elements according to ISO, DIN, or AFNOR/CNOMO standards.

Punches, dies and punch holders

A **wide range** of punches and dies from the Porter Besson brand is available on request in our catalog.

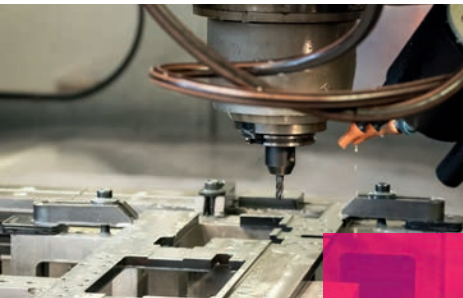

All blanks are **held in stock and machined** according to your demands.

Die sets

Our **standard or rectangular** die sets are available in the catalog and come **pre-assembled with guiding elements** from our MDL and Porter Besson brands.

Machining

FLAME CUTTING:

Lenght 6000mm x Width 2300mm x Thickness 250mm

AMDL Cooperative

AMDL is a cooperative company (SCOP) that is born from the takeover of MDL Europe by 45 employees in October 2022 and is located in Issenheim, Alsace.

AMDL has **specialized for over 30 years** in **large dimensions** precise machining, as well as in the manufacturing and distribution of **standard press tooling components** under the MDL and Porter Besson brands.

Production site and logistics center

Our production site and logistics center are located in the Florival industrial zone, in Issenheim, Alsace (France). They are served by two major roads and located less than 20 minutes from the German and Swiss borders.

On this site, we carry out:

- **all your orders** for machining plates, die sets, and punches & dies,
- **worldwide shipments** from our logistics center where we stock our entire range of standard components and accessories from the MDL and Porter-Besson brands.
